<b>Critical Appliances</b>	Lights
<b>Days of Autonomy</b>	1
<b>Solar System Reason</b>	Cost savings
<b>Solar System Type</b>	Off-grid
<b>Budget</b>	\$ 23700
<b>Financing Options</b>	Yes
<b>Additional Information</b>	What type of system monitoring and remote access is included? I may want to check in or troubleshoot from the city when away. There's a grassy area beside the garden that no longer gets much

sunshine due to new tree growth. It seems perfect for repurposing with solar panels.
